I can do the routes independently at any time of the year?

Yes. We recommend exploring the area in spring, summer and autumn. In summer you have to be careful of heat spikes; in spring and autumn you will have heavy rains.

IS it useful to carry a first aid kit?

It is advisable to carry a first aid kit with you on any cycling excursion.

How can I organise my excursion or trip?

If you want assistance in organising your excursion or trip, you can contact eXtraBO, the outdoor infopoint in Bologna where specialised staff can help you on each step of the way. If you're not in Bologna yet, you can send an email to: extrabo@bolognawelcome.it

Where can I find GPX tracks?

You can find all the tracks and information you need to complete your journey safely at discoveraltorenoterme.it or extrabo.com.

Accessible routes are designed by the charity Fondazione Silvia Rinaldi Onlus

Basic safety rules

- Cycling alone can be dangerous
- People with disabilities should always be accompanied, especially if the route is not well-known
- Tell others where you are going before you leave
- Make sure you and all other cyclists are physically and technically prepared for the route you want to take
- Uses GPS tracking (top up your battery charge and possibly carry spare batteries) and reliable maps. You must be able to communicate your position to others at any time
- Equip yourself with suitable clothing (windproof, rain-proof, thermal)
- Wear a helmet, gloves and glasses
- Knee and elbow pads are recommended (especially for handbikers)
- Use machines that are technically adequate (for the "style" of the route) and in good working condition
- Use GPX tracks that have been proven reliable

It is advisable to bring

- Water and energy foods (bars and gels). Electrolytes are also highly recommended
- A charged mobile phone (a dual SIM phone is recommended)
- A charged power bank if you plan a full-day trip
- A mechanical service/repair kit
- A first aid kit
- Finally, we advise you to bring emergency lights, whatever the season
