How to correctly credit the author of the visual, audio and video work

Before using the Bologna Welcome Media Database, read the Bologna Welcome Licence Agreement available on the “Media Database” online page.

The most important thing when using media content in the database is to give proper credit to the creators and owners.

Each photo should be appropriately and clearly marked with the name of the photographer, followed by “Bologna Welcome” (example: “Photo: ©Mario Rossi, Bologna Welcome”). For videos and audio files, the acknowledgement must appear in the end credits.

If you do not follow these rules, the author will be entitled to claim compensation.

Usage outside the Bologna Welcome Licence Agreement

If you wish to use the photos, videos or audio files in a way different from the provisions of the licence, please contact the author directly to negotiate new usage rights.
